

## PROGRAM HISTORY

The Construction Management Program at Eastern Michigan University is accredited by the American Council for Construction Education (ACCE).

The program was established in 1974 and was the first program in the state to be ACCE accredited. The program has been developed through the cooperation and input of an advisory committee comprised of select industry professionals, organizations, and associations. This collaboration ensures that the program remains a recognized institution that produces graduates who are prepared to meet the needs of today's leading construction employers.

## INTRODUCTION

Eastern Constructors, an AGC affiliated organization of students pursuing a major in Construction Management at Eastern Michigan University, is proud to present the Fall 2011 & Spring 2012 Construction Management Career Fair.

The Construction Management Career Fair is an annual event driven, organized, and supported wholly by the efforts of the students. Prior career fairs organized by Eastern Constructors have proven to be mutually beneficial to both students and the participating companies.

The current CM program enrollment at EMU is comprised of approximately 200 undergraduate students and 30 to 40 graduate students.

## BENEFITS

The Construction Management Career Fair provides the following opportunities to participating companies:

Meet EMU construction management students for future career employment, summer internships, and co-op positions.

Learn about EMU and our construction management program.

Develop relationships with EMU students and faculty.

Promote and distinguish your company to prospective recruits.

Help support the activities and involvement of the Eastern Constructors student group.
