

Education Committee

Invites you to join us for:

Student Constructor Awareness Night (SCAN)

Tuesday, October 7, 2014

VisTaTech Center, 18600 Haggerty Rd Livonia, MI 48152

SCAN is an annual event designed to expose students to the construction industry and the issues they face once employed. **SCAN is not a job fair; it is an educational event!** Your participation allows for meaningful interaction between students and industry professionals.

The evening begins with registration and time to network. Dinner follows with students and contractors seated together allowing for continued networking.

Following dinner, we move into the program, "The Role of Estimator," featuring a panel of industry professionals who will share their experiences.

To allow for additional networking, we will continue to offer the "speed networking" session following the panel discussion.

Please mark your calendars and plan to join us for this annual event.

The following suggestions will help to facilitate discussion throughout the evening:

Students - Ask contractors to share information on their position and responsibilities, career progression, size of company and type of projects. Ask what traits, skills, talents can lead to various roles in the company. Make sure to ask more about the role of estimator in each organization represented.

Contractors - Ask why the student picked construction management or civil engineering as a career and what they think they will receive from it. Encourage the students to ask other questions. Talk about various positions within the company – not specifically the title, but the role and responsibility of each member of the team. Make sure to provide more information about the role of estimator in your organization.

5:15-5:30 p.m.	Registration
5:30-5:45 p.m.	Welcome
5:35-6:20 p.m.	Networking Dinner
